

Table of Contents

Preface	vii
About the Editor	ix
About the Authors	xi
Acknowledgments	xv
Chapter 1 Classification of Long Steel Products	
<i>Robert L. Cryderman</i>	
1.1 Long Products and Production by Type	1
1.2 Long Products — General	2
1.3 Bars	35
1.4 Wire Rod	62
1.5 Structural Sections	71
1.6 Rails and Allied Sections	76
1.7 Tubes and Tubular Products	83
Chapter 2 Design and Construction of Rolling Mills for Long Products	
<i>Emanuele Osto, Luigi Giacomini, Sven-Erik Lundberg, Jonas Lagergren, Mattias Oppitz, Glyn Ellis, Mario Fabro, Eric Thorstenson, Silvia Fernández and Daniel Sánchez</i>	
2.1 Roll Stands	101
2.2 Rolling Mill Rolls	125
2.3 Roll Cooling	152
2.4 Rolling Mill Accessories	160
2.5 Descaling Equipment	198
2.6 Shears for Long Products	208
2.7 The Development of Sizing Mills for SBQ Bar	214
2.8 Wire Rod Blocks	227
2.9 Coilers	242
2.10 Temperature Control and Cooling Equipment	254
2.11 Material Finishing and Handling Equipment	277
2.12 Rolling Mill Drives and Power Requirements	304
2.13 Control and Automation of Wire Rod, Bar and Section Mills	317

Chapter 3 Roll Pass Design

Sven-Erik Lundberg

3.1	Introduction	337
3.2	Roll Pass Series and Roll Pass Design.	337
3.3	Roll Pass Design Methodology	357
3.4	Conclusions	407

Chapter 4 Production of Bar and Light Sections

Sven-Erik Lundberg, Francesco Toschi and Mel Head

4.1	Bar Products	413
4.2	Rolling of Bar Products	418
4.3	In-Line Heat Treatment of Bars	467
4.4	Heat Treatment of Bar Products.	479
4.5	Finishing and Shipping of Bar Products	489

Chapter 5 Production of Rails and Structural Sections

Scott Button, Luca Gori, Paolo Martinello, Valerio Paggetti and Andrea Spadaccini

5.1	Rolling of Rails	509
5.2	Rolling of Rail Joint Bars, Tie Plates, Etc.	536
5.3	Rolling of Parallel Flange Beams	540
5.4	Rolling of Sheet Piling.	563

Chapter 6 Manufacture of Steel Wire and Steel Wire Products

Magnus Jarl, Per Enghag and Sven-Erik Lundberg

6.1	Steel Standards — An Overview	571
6.2	Rolling of Wire Rod.	575
6.3	Preparation of Wire Rod for Drawing	591
6.4	Drawing Dies	598
6.5	Wire Drawing Theory.	602
6.6	Lubrication	610
6.7	Equipment.	615
6.8	Cast, Helix and Straightening.	624
6.9	Rolling of Flat Wire	629
6.10	Cleaning of Drawn Wire.	632
6.11	Heat Treatment of Wire	635
6.12	Surface Treatment.	639
6.13	Testing of Wire.	645

Chapter 7 Manufacture of Steel Tubular Products

Sven-Erik Lundberg, Lee E. Allgood, Charles W. Lamb, Katharina Sophie Ragger, Jürgen Paal and Bruno Buchmayr

7.1	History and Classification of Steel Tubular Products	657
7.2	Electrical Welding of Tubular Products	660
7.3	Electric-Welded Large-Diameter Tubular Products	665
7.4	Seamless Steel Tubular Products	675
7.5	Extrusion of Stainless Steel Tubes	703
7.6	Cold Working of Tubes	716
7.7	Finishing Operations for Tubes and Piping	725

Chapter 8 Production of High-Alloy Semi-Finished Steel Products by Ingot Casting, Rolling and Forging

Richard H. Smith, Henrik Wennström and Sven-Erik Lundberg

8.1	Solidification of Ingots	731
8.2	Rolling of Specialty Steel Ingots	795
8.3	Forging of Heavy High-Alloy Steel Billets and Bar	830
8.4	Inspection and Conditioning	870
